ADVANCED
SOFTWARE

Co-developed by professionals

As extensively tested by team Epsilon, the superior high-end quality materials and ideal lightweight, ergonomic design fit the needs of every competitive gamer perfectly. With its ambidextrous form factor, this mouse is designed for both left and right-handed gamers. The perfect palm and finger grip combined with the anti-slip coating assures optimal control in any circumstance. The 180cm rubber cable prevents drag and cable tangling so you can blaze through any battlefield sovereignly.

Programmed to win

You're one step ahead of your enemies when you and your gear become one. The advanced software allows you to alter the 6 responsive and programmable buttons so the mouse is perfectly adjusted to your preferences. Design the macros and assign the buttons to actions that will save you crucial time and increase your reaction speed. Whatever challenge you accept, the speed with which you handle your Kusan will blow away your enemies.

Commit to memory

You can store your optimized settings for every game into one of the 5 gaming profiles on the onboard memory of this mouse. This allows you to easily move between computers without reconfiguring your mouse. You can take this eSports gaming mouse to every LAN party or gaming tournament: we strive to build the next generation of champions.

Control the game

With the Kusan at your side, you enter the gaming arena with a high precision Pixart 3325 sensor which gives you that edge to improve your headshot statistics. With its ambidextrous form factor, this mouse is designed for both left and right-handed gamers. The perfect palm and finger grip combined with the anti-slip coating assures optimal control in any circumstance. The 180cm rubber cable prevents drag and cable tangling so you can blaze through any battlefield sovereignly.
