Wide viewing angle

Le funzioni Wide Viewing Angle permettono di vedere colori accurati con angoli di visione fino a 178°. In questo modo, la resa cromatica sarà impeccabile, indipendentemente dalla posizione dell'osservatore.

Design senza cornice

Oltre ad avere un aspetto moderno e accattivante, i design senza cornice consentono configurazioni multi-monitor senza soluzione di continuità. Il cursore/le finestre non si perderanno più nell'abisso scuro delle cornici, quando molti display vengono affiancati l'uno accanto all'altro.

Ergonomici

Immediato senso di comfort! I supporti regolabili in altezza, inclinabili e girevoli vi aiutano a trovare la posizione più comoda e salutare.

Pivot

Le P2 può essere ruotato di 180° per passare dall'orientamento orizzontale a quello verticale, funzione particolarmente utile in certi settori.
