WS-2001P

Smart Wireless Door & Window Sensor Add-on Accessory for IC-5170SC

Instant Alerts When Doors and Windows are Open or Closed

The WS-2001P Door and Window Sensor is one of Edimax's range of Smart Sensors. Its built-in reed switch works with 2.4GHz RF and connects to your existing home Wi-Fi network, with a slim design that's ideal for narrow jamb doors and windows.

The sensor makes sure your doors and windows are shut so that pets can't escape and valuables are safe, or you can even use the sensors on closet doors and drawers. It works with the IC-5170SC. With the convenience of the IC-5170SC surveillance system, you'll be informed with video alerts when your loved ones arrive or leave home. You'll have no worries about leaving a back door ajar or the side windows open at night, and get immediate warnings when the door or windows are opened.

Ideal for doors, windows, closets and important drawers

Works over Wi-Fi & 2.4GHz RF

Edimax smart sensors are universally compatible with your existing Wi-Fi network. They work over 2.4GHz RF technology which provides proven, stable and secure wireless data transmission.

Slim, Sleek & Small

Elegant design that fits discreetly wherever you need it. Guests won't notice it's there.

Low Battery Alerts

Edimax smart sensors are powered by AAA batteries which are easy to replace. The sensor's low-power design enables long battery life with daily use. When battery levels are low, you'll be informed by the EdiLife mobile app in plenty of time to get replacements.

Convenience

Stay in a cozy bed on an icy cold evening.

You don't need to get up to check that doors or windows are closed at bedtime. Make sure everything's secure from your warm bed.

Care for Loved Ones

No worries when you're working late.

Having a busy day at work?
Can't get out of the office on time?
Check in at home from your smartphone and know when the kids are home from school and everything's alright at home.

Peace of Mind

Know what's happening at home, wherever you are.

You'll always be informed on your smartphone with real-time video alerts, no matter where you are. So you'll know if it's just your kids playing or an unwelcome guest at the door.

Features

- Connects to your existing Wi-Fi network through IC-5170SC.
- Built-in reed switch works with 2.4G RF to send warnings immediately when the Door / Window Sensor separate.
- Slim design. Ideal for doors, windows, safes or important drawers.
- Easily pair with IC-5170SC and attach to places you want to remotely monitor.
- LED for pairing status and low-battery indication. Push alert when the sensor's battery is low.
- Up to 32 sensors can be used with IC-5170SC wireless dongle. (each type sensor max. 8pcs)

Works with IC-5170SC for complete range of monitoring

The WS-2001P Door & Window Sensor works with the IC-5170SC gateway which to offer wider angle views than conventional Wi-Fi cameras, the IC-5170SC's fisheye camera can cover your front door, garage or a whole room without surveillance blind spots. Compared with installations of other cameras on the market, the IC-5170SC not only slashes the cost of devices, storage space and bandwidth – but provides more convenience to work with multiple environment sensors to watch and secure your properties at the same time. It's effective regardless of whether you're living in a small apartment or a mansion.

180° Panoramic View with IC-5170SC

The IC-5170SC provides a 180-degree panoramic view for an excellent field-of-vision across an entire room. It also can be focused on areas in detail with high quality video streaming. Clearly see your loved one – kids, pets or the elder - in every moment to offer you a great peace-of-mind.

Supports up to 32 sensors

Affordable home automation isn't a dream. Pair up to 32 sensors with the IC-5170SC , each type of sensor max 8pcs, and fit the sensors wherever you need around your home. No installation costs. No monthly fees. No subscription required.

WS-2001P
Door/Window Sensor

WS-2002P

WS-2003P
Temperature & Humidity Sensor

Free EdiLife app

Works with the free EdiLife app to provide live views and real-time notifications of events triggered by the multi-environment sensors. With other EdiLife benefits such as push notifications, video and events logs, and more.

Flexible Storage Options

Triggered by sensors, recordings from the IC-5170SC can be saved directly to microSD, SDHC, NAS, Google Drive or Dropbox* – flexible options for you to save video on the cloud or local storage. Save events directly to your NAS or cloud storage instead of local physical devices for remote backup.

Edimax Cloud

Wherever there's an Internet connection you can always connect with the IC-5170SC using your smartphone.

Easy installation

One touch to pair with the IC-5170SC, and easily attaches to places you want to monitor. No screwdriver required.

Ultra Easy DIY Installation

<p>1</p> <p>App: Download the free EdiLife app for fast setup and receive instant video alerts.</p>	<p>2</p> <p>Pair: Pair the door/window sensor to IC-5170SC controller with ease.</p>	<p>3</p> <p>Monitor: Small enough to install anywhere you want to monitor.</p>
