POWX155

BENCH DRILL 500W

This 500W bench drill of Powerplus lets you drill up to Ø 50mm deep in wood and in steel. It can easily be adjusted at the desired height. The 168x168mm table is rotatable up to 45° and can be set at different heights. The laser system enables you drilling very precisely and defining the correct drilling depth. You can choose between 9 speed settings, from 280min⁻¹ until 2350min⁻¹, depending on the drilling job.

The POWX155 features a sturdy steel column and its safety guard takes care of a secure device. This bench drill doesn't require a lot of maintenance: regularly clean the machine housing with a soft cloth and keep the ventilation slots free from dust and dirt, preferably after each use.

A chuck, a chuck key, 3 flat washers, 3 spring washers, 3 bolts, 2 hex keys and AAA batteries are included.

TECHNICAL SPECIFICATIONS POWX155		Features	Box content	Symbols
Rated voltage - Frequency	230V~ 50Hz	• Crosshair laser • 9 speed settings • Induction motor • Table tilt max. 45°	1 x headstock of machine	CHEMICAL SAFETY ✓ CE Laser beam Do not look into the laser beam Laser class 2 according EN 60825-1:2014 P<1mW, λ=650nm
