

**BUSINESS DEVICES THAT ARE A  
CLASS APART**

ThinkBook combines the style and user experience of consumer devices with the security and business-class support of ThinkPad.

## ThinkBook 14 G2 ITL

**Smarter  
technology  
for all**

**Lenovo**

Designed for young professionals who seek both style and substance in a work device, this sleek 14" laptop is surprisingly lightweight yet packed with innovative features for anytime, anywhere productivity. It has a sophisticated design with dual-tone metal top cover, fingerprint sensor integrated power button for a smartphone-like experience and optional Wi-Fi 6 support that enables faster, more secure connectivity. Plus, MIL-STD durability and an all-day battery make it ideal for mobile use.

### REASONS TO BUY

Mobile workers will appreciate the impressive 85% screen-to-body ratio that enables a surprisingly large display in a small-form factor. The TÜV-certified display with optional 100% RGB colour gamut provides comfort and accuracy when working with small text, graphics or video content.

There are plenty of ports onboard including the new Thunderbolt 4 port that enables simple, fast and intuitive connectivity to data, power and video through the widely accepted USB-C port.

Smart Power On touch-key replaces the power button, ensuring biometric authentication every time somebody uses the device.
