## OVERVIEW

Rock out anywhere with Gemini's ES-TOGO series. Cutting-edge features will put you in complete control as you craft your sound and entertain crowds of all sizes. Dominate your playback session using your Bluetooth compatible smartphone, tablet or media player. Connect in seconds and revel in the additional ports for USB and SD cards and the integrated media player. Built-in treble, bass and echo controls give you complete control over the sound coming from the two included VHF wireless microphones. Built-in wheels and telescoping handles make these units perfectly portable for the music lover who wants more from their speaker system. Enjoy hours of continuous playback via the unit's built-in rechargeable battery.
