Lenovo V15 IML

Smarter
technology
for all

Lenovo

A basic notebook for working with web-based applications, documents and emails. The metal-effect design features simple clean lines for a modern look, with a choice of a metallic or patterned textured paint. Completely redesigned, it's thinner and lighter than many notebooks at this price point, and now has an ultra-slim frame around the screen.

REASONS TO BUY

Onboard stereo speakers deliver a combined 3W audio output and Dolby Audio technology to enhance sound quality for video, music and VOIP calls. 3x onboard USB ports and a 4in1 media card reader ensure users can plug into other storage devices and peripherals.

Configure according to your budget with up to 10th Gen Intel Core processors, a Full HD or HD screen, M.2 SSD or HDD, or dual drive storage with both ultra-fast M.2 SSD storage and high-capacity HDD onboard.

We've enhanced the design of this affordable notebook, using the latest materials for a choice of textured or a metal-like finish that's cool to the touch.
