

ATR1500x

UNIDIRECTIONAL DYNAMIC VOCAL/ INSTRUMENT MICROPHONE

The **ATR1500x** unidirectional dynamic microphone offers professional build and sound quality at an attractive price, making it an ideal choice for aspiring musicians. The mic's directional polar pattern keeps the pickup focused on the sound source, delivering clear, natural-sounding reproduction of vocals and instruments, while also helping to prevent feedback. The **ATR1500x** includes a detachable 5 m XLR-to-XLR cable for use with live/studio mixers and professional sound systems. And its rugged metal construction and convenient on/off switch ensure reliable, easy-to-use performance.

- Professional sound quality for vocals and instruments
- Ideal for use with live/studio mixers and professional sound systems
- Unidirectional polar pattern reduces pickup of sounds from the sides and rear, improving isolation of desired sound source
- Detachable 5 m cable (XLR to XLR)
- Rugged metal construction for long-lasting performance
- Conveniently located on/off switch
- Includes adjustable stand clamp and soft protective pouch
