

607Wh Total Battery Capacity

9 Ports for Multi-Device Charging (Up to 816W Output)¹

USB-C Fast Charging (Up to 60W)

Versatile Recharging Methods (Solar charging supported)²

Up to 1,000 Full Charge Cycles³

Durable Lithium Battery

Smart Display

Built-In LED Light with 3 Adjustable Modes

Compact, Space-Saving Design

Low Noise Technology⁴

Your grab-and-go power for outdoor adventures

The PS600 is a powerhouse to help you explore nature further than ever before. Whether you are camping, enjoying a family outing, or just going wherever the road takes you, the PS600 is ready to charge your essential electronics and small appliances⁵ via fast-charging USB-C and other ports.

Share the power with multiple charging ports

Whether you need to charge multiple devices at once or your family and friends want to share the power, the PS600 is ready to satisfy any demand. Five different types of ports - 9 ports in total - provide the power outputs¹ that everybody needs.

A safe, durable battery on the go

Long-lasting Lithium Battery

Lithium batteries ensure up to 1,000 full charge cycles for extensive everyday use and manage to maintain 80% battery capacity after 1,000 full cycles.

Battery Management System

The on-board BMS helps prolong the lifespan of the PS600, by constantly monitoring how well the machine operates, including voltage, current, temperature, etc.

Lightweight, quiet, and travel-friendly

Be sure to include the PS600 power station in your travel packing checklist. Thanks to its lightweight and space-saving design, it's made to go on the road.

The PS600 is designed to reduce excessive noise levels while efficiently charging devices*. It's great when you're working or sleeping as it powers up your essential devices.

Smart display at a glance

See all the charging and recharging details, temperatures, and any operational warnings on the PS600 power station, with a quick glance.

Built-in LED light for extra convenience

Whenever you can't reach a flashlight in an emergency or need extra ambient light for the great outdoors, just turn on PS600's built-in LED and enjoy! Three illumination options give you just the light you need.

3 Light Modes | Ambient | Bright | Flashlight

- 1 The maximum total output of the PS600 is 816W. If the output of the appliance's actual use surpasses that value, the Error Indicator on the smart screen will be displayed.
- 2 A compatible solar panel must be purchased separately and will be available from EZVIZ soon.
- 3 Based on test results from the EZVIZ Lab. After 1,000 full charge circles, the battery capacity will drop to around 80% of its original capacity.
- 4 When charging high-wattage devices or appliances via the AC outlet (as per instruction stated in the User Manual), the power station may operate at an increased noise level. This will be due to the operation of built-in cooling fans.
- 5 The PS600 can only properly charge small-to-medium devices/appliances that have a maximum output of less than 600W. The numbers of each device's charging efficiency is based on testing results under standard conditions and may vary during actual use due to environmental factors.
