

Lenovo 13w Yoga

This flexible convertible with a 360° hinge is an ideal work companion for mobile professionals. Use it in the laptop, tent, or stand mode for 1:1 presentations inside or outside the office; convert it into a tablet for reading or writing on-the-go. The security features include an optional fingerprint reader for user authentication, a camera privacy shutter for protecting user privacy, and discrete TPM for data encryption.

Scroll through documents with the touch of a fingertip without worrying about scratches, thanks to the multi-touch display with anti-fingerprint technology. Take notes, doodle, or write down ideas whenever they strike with an optional onboard digital pen.

With a battery that lasts up to 12 hours, it enables users to work an entire day outdoors, whether traveling for work or visiting project sites.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo devices that are a class apart

Lenovo Tab Series is designed for mobile and frontline workers who need a lightweight tablet for basic productivity tasks.
