

OUR BESTSELLING SPEAKER IS BACK AND NOW PACKS AN EVEN BIGGER PUNCH – MEET EMBERTON II

EMBERTON II WILL BE AVAILABLE GLOBALLY FOR PURCHASE ONLINE AT [MARSHALLHEADPHONES.COM](https://www.marshallheadphones.com) THIS SUMMER

EMBERTON II BRINGS YOU THE SAME SUPERIOR MARSHALL SIGNATURE SOUND AND PORTABILITY THAT YOU LOVE, NOW AMPLIFIED WITH APP SUPPORT, STACK MODE AND 50 PER CENT MORE PLAYTIME THAN ITS PREDECESSOR.

Marshall's top selling speaker of all time is back and badder than ever. Generation two of the critically lauded Emberton speaker now packs an even mightier punch than before to deliver the ultimate listening experience on the go.

SUPERIOR SIGNATURE SOUND

Emberton II delivers sound that is rich, clear and loud, like the artist intended. Two 2" full range drivers and two passive radiators bring you the heavy Marshall sound you know and love. By separating out the spatial content of stereo recordings, Emberton II produces a sound much larger than its size and outperforms most speakers in its class. Emberton II utilises True Stereophonic, a unique form of multi-directional sound from Marshall. True Stereophonic is stereo sound, but not as you've heard it before. Experience superior spatial and binaural sound that flows around you and fills any space. This is absolute 360° sound – where every spot is a sweet spot.

30+ HOURS OF PORTABLE PLAYTIME

Emberton II offers 30+ hours of portable playtime on a single charge – 50% more than its predecessor. Its compact size, rugged durability and reliable playtime make it perfect to take with you. When you're out of battery, just plug in your speaker and return to full battery in 3 hours. If you need a speedy top-up, Emberton II has a quick-charge feature, with only 20 minutes delivering a playtime of 4 hours. Listening matters, and this speaker won't keep you waiting for the next song.

ROADWORTHY IP67-RATED DESIGN

Emberton II is tough and resilient. With its silicone exterior and solid metal grille, it boasts an extremely durable and easy to use design. Emberton II has an IP67 dust- and water-resistance rating so you can submerge Emberton II in 1 m (3 ft) of water for a period of up to 30 minutes. This is a speaker that won't let rain or dirt get in the way of your music.

PAIR, PLAY AND BRING THE LOUD

Emberton II won't slow you down with a lengthy set-up – pair, play and let the good times roll. Download the dedicated app if you want to find the right sound with equaliser presets, and to keep your speaker up to date with Over-the-Air (OTA) updates. Emberton II is straightforward and easy to use, with a multi-directional control knob that allows you to play, pause, skip tracks and adjust the volume, as well as turn the speaker on or off.

MULTI-SPEAKER STACK MODE SESSION

Emberton II has been powered up with Stack Mode. Amplify your sound with a multi-speaker session by connecting your speaker to other Emberton II speakers. To activate Stack Mode, just use the controls on the speaker. Stack as many Emberton II speakers as you like and create a sound as big as your imagination.

A MORE SUSTAINABLE APPROACH

Emberton II is faithful to the iconic heritage design of the brand while taking a more sustainable approach. This speaker's sturdy build comprises 50% post-consumer recycled plastic from used electronics, water bottles and automotive light covers, and is 100% PVC-free.

ICONIC MARSHALL DESIGN

Emberton II combines contemporary technology with iconic Marshall design to deliver hard-hitting sound while retaining a classic look. The textured silicone sleeve arcs back to the classic vinyl that encased the original amplifiers and signature details, such as the solid metal grille and iconic Marshall script, echo the legacy of rock 'n' roll.

BLUETOOTH 5.1

Emberton II comes equipped with Bluetooth 5.1 technology for simple connectivity, exceptional audio quality and wireless music play.

ABOUT MARSHALL

Marshall is a true rock legend. A distinct and expressive sound combined with an iconic stage presence that has inspired music fans around the world for over five decades. This unparalleled amount of wisdom has been distilled and fused into every part of Marshall headphones and speakers. Nothing has been compromised when expanding the Marshall heritage of big stage performance to the individual enjoyment of good music.

The legacy began in a small Hanwell drum shop in the 1960s, where Jim Marshall sought to give a bunch of then-local

guitarists the sound they wanted – a sound that was harder, crunchier and more rich. The result was the JTM45, an amp that reverberated with a sound that was much heavier than anything ever heard before. In a twist of rock and roll fate – those guitarists, much like the Marshall name, would go on to revolutionise music forever.
