# Let's go places

It is this enduring spirit that inspires people to live to the full, no matter what adventures they will go through, and wherever these adventures take them.

2 HOUR  
BATTERY

## Cut the cord

Take the HALO+ projector anywhere, anytime without fumbling with cords or clunky power adapters, and enjoy up to two and a half hours battery life.

# 900ANSI

## Any time is movie time

Because brightness is as important as portability, bringing 900 ANSI lumens, makes the XGIMI Halo+ the most powerful portable projector in the market.

# FHD HDR10+

With HDR10+

Without HDR10+

## Pure image as Directors intended

HDR10+ adds additional scene-by-scene metadata to further improve image quality, bringing the directors vision to your eyes.

3D  
supported

# 3D to truly replicate the movie theater experience

Super realistic 3D effects that bring the  
video to life.

# Immersive Smooth Gaming

Refined details for extended entertainment to fully experience both the subtlety and intensity of the virtual world without delay thanks to low latency gaming mode @26MS

SOUND BY

harman/kardon

## 2x5W Speakers

Powerful audio performance surround stereos use acoustics to balance conversations and sound effects.

Intelligent Screen Alignment

# Intelligent technology simplifies usability

Projection that automatically adjusts the image to  
your screen at start. – no manual setting needed

# Flexibility without Compromises

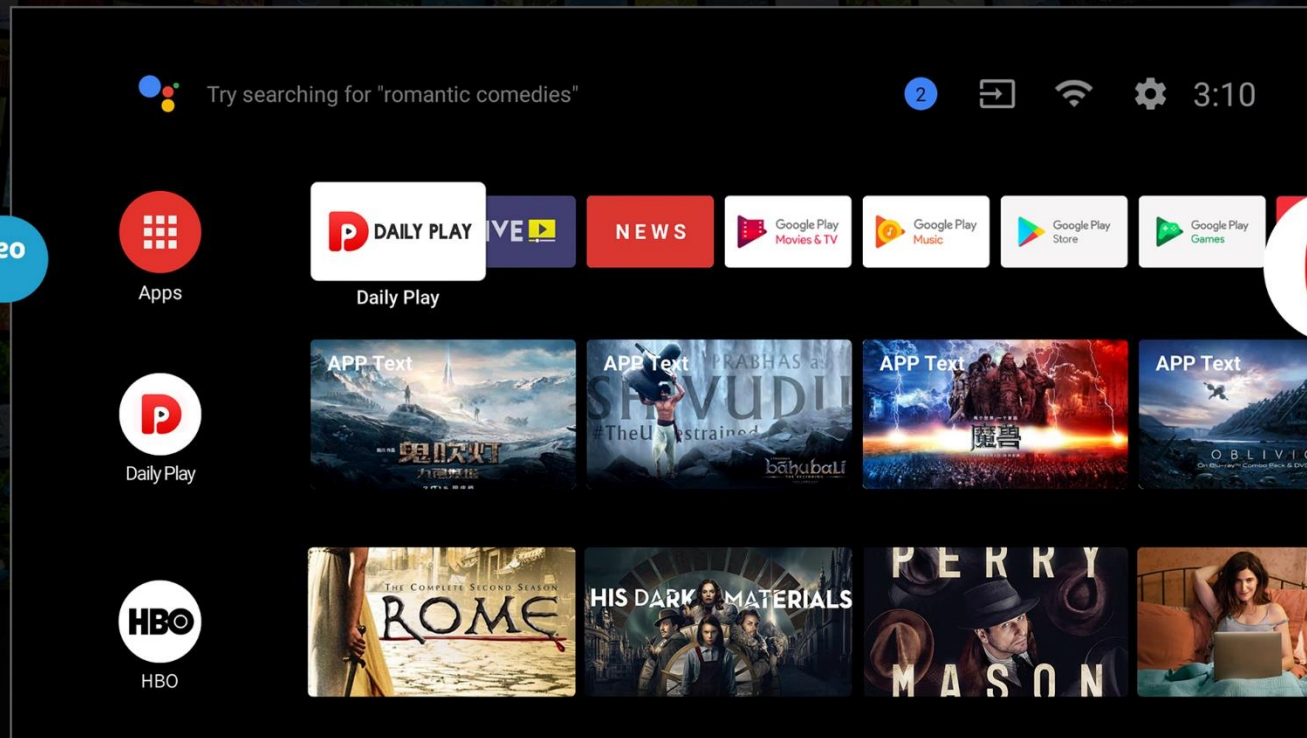

XGIMI's Leading Intelligent Screen Adaptability Technology (ISA) helps avoid objects, adjust keystone and autofocus in seconds.

# Content Much?

Official Android TV 10.0 to enjoy the best user experience,  
intuitive navigation and a vast world of content

# Slide, touch and mirror

Built-in Chromecast lets the users easily stream content directly from their phone

Bluetooth 5.0

## A remote that shines

Functional design at work, this stylish Bluetooth remote uses the power of Google Assistant to guide you throughout your projection journey

## Portable Form factor

1.6 KG

113.5x145x171.5

# Built to last

LED lifespan stays perfectly crisp, bright and clear for 30,000 hours. Meaning it last 10 years+ before needing a lamp change

# Well connected

Keeps you plugged in anywhere with HDMI, USB, Wi-Fi, Bluetooth, and headphone connections

DC x 1

USB x 1

HDMI x 1

AUDIO x 1
