

ThinkCentre Tiny-in-One 27

An all-in-one PC with the performance and flexibility of a separate desktop and monitor. IT admins can upgrade PC and display independently, inserting any ThinkCentre Tiny computer into the rear bay - no cables or tools required. Office-based employees will find it easier to work on the 27" Quad HD display, with an anti-glare screen coating, low blue-light output, wide height and angle adjustment, and instant login via the infra-red facial recognition camera.

Mainstream computing for a variety of business uses

ThinkCentre Tiny-In-One devices enable businesses to upgrade displays and computers separately, but still enjoy the space-saving benefits of an all-in-one device.

The compact design is great for offices with limited space. The desktop can be placed neatly behind the monitor in a dedicated slot and the monitor can be wall mounted to free up valuable desk space.

Just like any all-in-one, the display on/off button also powers on the PC, and there's a webcam with integrated privacy cover.

For data analysis workloads install a ThinkStation Tiny with a powerful processor. Consider additional DDR4 memory for heavy multitasking.

Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Warranty Extensions

- Purchase additional warranty periods from 1 to 5 years
- Buy at any point with or after your device purchase
- Optional On-site Service

Accessories

Lenovo Adjustable Height Arm

- Reduce neck & back pain by positioning a VESA-compatible monitor, ThinkCentre M AIO or Lenovo V Series AIO, to the most comfortable height and angle
- Extends display out to a range of 64cm (25"), with height adjustment up to 33cm (13")
- Can be fitted to desk via a clamp without drilling holes

PN: 4XF0H70603

Lenovo Desktop Privacy Filter from 3M

- Patented microlouver technology darkens the screen at specific angles to protect against visual hackers
- Available in a range of sizes. Includes adhesive strips for easy residue-free removal and multiple on-and-off uses
- Reduces glare from bright computer screens and overhead lights

PN: For 21.5" displays : 4XJ0Q68426 For 23.8" displays : 4XJ0Q68427
