Navee Electric Scooter V25i Pro II

(EU version)

Double Flip Design

NAVEE incorporates its iconic double folding design for convenient storage, achieving a volume reduction of up to 85% compared to its unfolded state.

10-inch Pneumatic Tires

Equipped with robust 10-inch pneumatic tires renowned for their exceptional obstacle-surmounting prowess, adeptly engineered to absorb shocks with utmost effectiveness.

Super Power for Stronger Performance

Featuring a 600W peak power motor, this scooter delivers remarkable performance and acceleration, effortlessly conquering inclines of up to 15°.

Long Battery Life & Innovative Tire Texture

Delivering a maximum range of up to 25km, perfectly meeting the essential needs of daily commuting. NAVEE introduces an innovative tire texture designed to minimize rolling resistance, resulting in significantly reduced energy consumption.

Built-in Turning Light Indicators

Featuring E-Mark certified integrated front and rear turn signal lights, ensuring compliance with rigorous European safety standards.

Front Fork Suspension

Absorbs shocks and vibrations, making the ride smoother on uneven surfaces. Increases the front wheel's grip, improving handling and safety.

Dual Braking System

With a rear mechanical drum brake complementing the front E-ABS, this scooter ensures a reliable dual brake system for a stable and safe ride.

Automotive-Grade Energy Recovery System

While riding, brake or release the throttle to activate energy regeneration, automatically maximizing your scooter's range. Adjust the recovery level in the app for personalized efficiency.

Unlock more features with NAVEE APP

The NAVEE APP brings you a world of possibilities, upgrading your riding experience with versatile functions at your fingertips.

Enlarged Size for More Comfortable Experience

The new human body-inspired design enhances riding posture with a larger standing area for improved comfort and driving experience. Crafted from automotive-grade high-strength steel, the frame ensures durability and strength.

4-inch Suspended Display

Divided into three sections seamlessly, it offers a quick glance at crucial information: Vehicle Status, Speed, and Gear/Battery Level, ensuring clarity.

Apple Find My

Thanks to the Apple Find My network, you can easily keep track of your scooter, even if it is offline. You can quickly locate it through the Find My app on your iPhone.
