lëvoit **Vital 100S** SMART TRUE HEPA AIR
PURIFIER

Did you *know?*

We might spend most of our time inside, but indoor air quality is often 2–5 times worse than outside*. Pollutants get trapped in your house, turning your living space into a source of allergy flare-ups and congestion. Air purification is one of the most effective ways to keep your home clean and comfortable.

MEE T levoit

Home is more than a space, it's a feeling. At Levoit, we pay attention to every detail of your environment, from the ground you walk on to the air you breathe. Through customizable technology and award-winning home wellness products, we look to promote awareness and provide solutions that fit seamlessly into your daily routine. As our collection continues to grow, the guiding principle remains the same: you aren't home until you feel at home.

Revitalize *Your Space*

Make fresh air a habit in your home with the Levoit Vital 100S Smart True HEPA Air Purifier. Quickly purify airborne pollutants in your room using powerful technology for unmatched results. Keep clean the way you want it.

Product Specification

Feel the difference of thoughtful design in the Vital 100S, carefully crafted for efficiency and effectiveness.

Power Supply	24V= 1.5A
Rated Power	32W
Ideal Room Size	222 ft² / 21 m²
	This Ideal Room Size is based on 5 air changes per hour (ACH). 555 ft² / 52 m²
	This Ideal Room Size is based on 2 air changes per hour (ACH). <i>Note: Effective for larger rooms but purification will take longer.</i>
CADR (CFM)	143CFM / 243 m³/h
Operating Conditions	Temperature: 14°–104°F / -10°–
	40°C Humidity: ≤ 85% RH
Noise Level	23–52dB
Dimensions	12.6 x 6.3 x 16.0 in / 32.1 x 16.0 x 40.6 cm
Weight	8.6 lb / 3.9 kg
Power Adapter	Input: 100–240V~ 50/60Hz
	Output: 24V= 1.5A

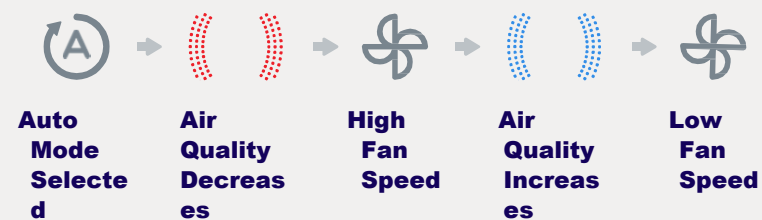

Air Quality Updates

Always be on top of your room's air quality using the AirSight™ Infrared Dust Sensor. The Vital 100S will detect particles in your air and update the display to notify you.

Auto Mode

Using the AirSight™ Sensor, Auto Mode adjusts fan speeds to keep your air clear of airborne contaminants.

HOW DOES AIRSIGHT™ WORK?

INDICATOR COLOR	AIR QUALITY	AUTO MODE FAN SPEED
	Very Good	Sleep Mode
	Good	Low
	Moderate	Medium
	Bad	High

3-Stage Filtration with up to *12-Month Filter Life*

Even though you can't see most allergens, they still lower your air quality. Find out what pollutants each filter removes from your atmosphere.

1. WASHABLE PRE-FILTER

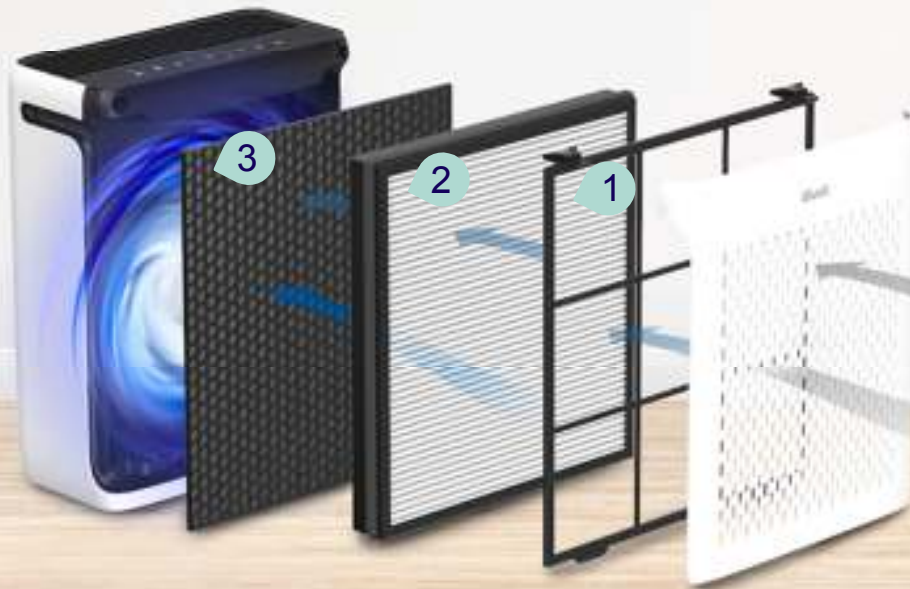

Captures large particles like lint, fibers, hair, and pet fur, as well as helps protect the lifespans of the other filters.

2. H13 TRUE HEPA FILTER WITH HEPA SMART™ TECHNOLOGY

Uses statically charged fibers to trap at least 99.97% of airborne particles 0.3 microns in size, including fine dust, smoke particles, pollen, and pet dander.

3. HIGH-EFFICIENCY ACTIVATED CARBON FILTER

Filters odors, smoke, and compounds such as formaldehyde, benzene, ammonia, hydrogen sulfide, and volatile organic compounds (VOCs).

Powerful *Circulation*

Equipped with a DC motor and 4 different fan speeds to choose from, the Vital 100S can deliver clean air to rooms as large as 548 ft² while keeping noise levels low.

Perfect for

Using Pet Mode, efficiently filter allergens, dander, and pet odors while conserving energy. The U-shaped large air inlet is also designed to effectively capture hair from all angles to make pet fur no problem.

Cleaner Air, *Better Health*

Sometimes it's a cold, sometimes it's just your air. An air purifier helps reduce your likelihood of experiencing symptoms by capturing these common allergy-causing pollutants.

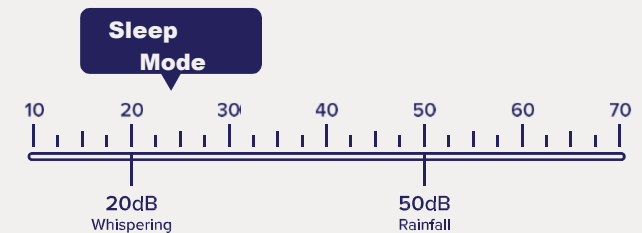

Silent *Operation*

Rest peacefully knowing the Vital 100S is creating the perfect environment with noise levels between 23–52dB. Use Smart Sleep Auto Mode to cycle between fan speeds to quickly and quietly clean the air.

When the lights go down, the Light Sensor detects darkness and automatically turns off the display lights so you won't be disturbed.

"Alexa, set the air purifier to Auto Mode."

Smart *Control*

With the free VeSync app, you can purify your home's atmosphere with ease—even when you're not there.

- Control settings
- Check filter life
- Create schedules
- Set timers
- View real-time air quality updates
- Connect to voice control

Hands-Free *Control*

Connect the Vital 100S to voice command assistants through the VeSync app so you always have access to fresh air.

Note: The VeSync app interface may experience future changes due to ongoing improvements and software updates

Anytime, Anywhere

With a variety of user-friendly smart features, you can customize settings to match your preferences.

Pre-Filter Wash Reminder

In VeSync, choose between a 2-week, 3-week, and 4-week notification reminder to wash your Pre-Filter.

Real-Time Air Quality Updates

View real-time air quality updates in the app. See your air quality history for the previous 4 weeks.

Different Modes

Set your Vital 100S to Pet Mode or Smart Sleep Auto Mode to match your preference at the time.

Set Timers & Create Schedules

Customize air purifier settings to fit your lifestyle on any given day, whether you're at home or away.

l voit **Vital 100S** SMART TRUE HEPA AIR
PURIFIER

Sustainably *Minded*

We're taking steps to protect our planet, starting with the Vital 100S's ENERGY STAR certification for lower energy consumption and its Washable Pre-Filter—a more environmentally-friendly alternative to one-use pre-filters.

Certifications

Don't just take our word for it. Fully certified, the Vital 100S meets the industry's highest standards.
