■ Upgraded Evaporative Technology

Upgraded Evaporative Technology:

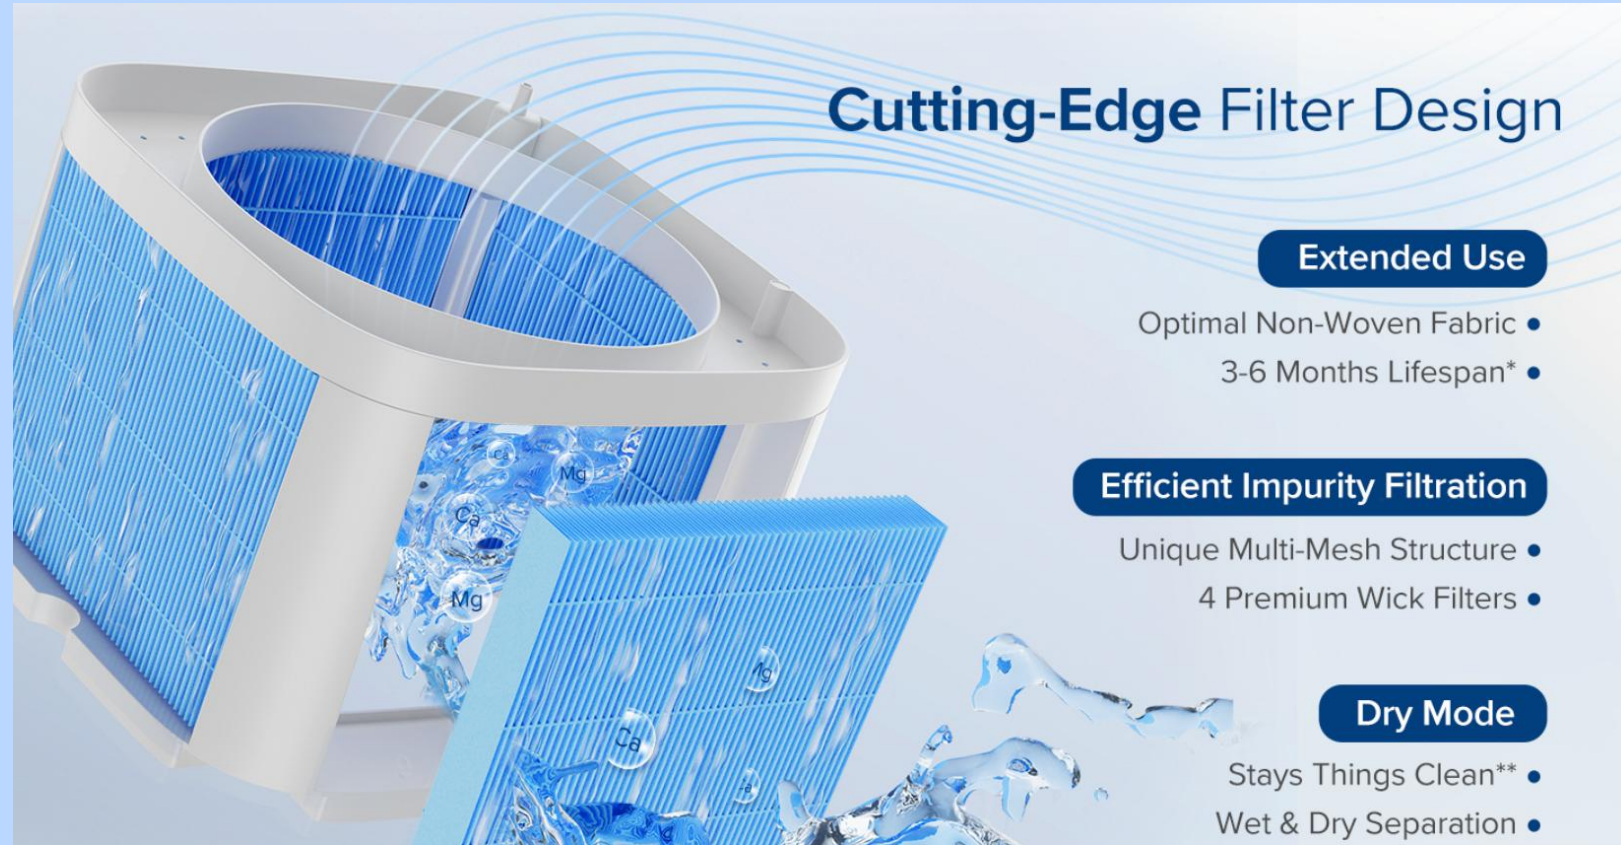

Boost water evaporation with high-speed fan blades. It will produce **fog-free** humidification with **no white dust** disruptions, ensure it's not wet on your furniture. It's suitable for tap water

■ Next-gen Filter Design

Deliver Healthier Humidification

- New wick filters make sure that **only pure water mist (H₂O)** will be output into the air.
- The high-quality wick filters have prolonged lifespan of **3-6 months** working with **Dry Mode** together to **prevent mold** built inside.

Quick Filtration: 4-piece filter design unlocks 360° High-efficiency filtration, delivering smoothing mist output.

■ Whole-house Hydration, up to 279m²

Humidifies extra-large space up to 279m², easily covering whole big house, huge office, hotel hydration.

Featuring a 22.7L tank and an impressive 1500 ml/h output, it rapidly diffuses moisture to every corner in your space.

■ Ultra-uniform Moisture, Ultra-long Duration

The purified invisible mist is gentle on the respiratory system, making it ideal for individuals with sensitive respiratory conditions.

Enjoy up to **72 hrs** of non-stop release of fine water molecules, maintaining consistent humidity levels throughout your space.

■ Smarter Auto Home and Auto Away Mode

Auto Home Mode

Current temp
70°F/21°C
